Figure 10 is a line graph showing the variation of the number of buses in the network over time (0 to 8). The y-axis represents the number of buses, ranging from 0 to 10. The x-axis represents time in hours. The graph shows a sharp drop in the number of buses at approximately 1.5 hours, followed by a rapid recovery and stabilization. The legend identifies the buses: PEDR-115, TALN-115, LUNI-115, SMAT-115, HAVI-115, CHAL-115, VOLC-115, APOP-115, AHUA-230, 15SE-230, and NEJA-230.
